

## JOIN TCTECH NOW AND ENJOY THE BENEFITS OF A GREAT PROFESSIONAL ASSOCIATION!

THE TAX COMMISSIONERS' TECHNOLOGY DEVELOPMENT COUNCIL OF GEORGIA (TCTECH) is an independent statewide association dedicated to creating a legacy of excellence by providing leadership and influence by and for Tax Commissioners. Our mission is to be a driving force in county government by leading and enabling Tax Commissioners to better serve the citizens' needs.

How do we do this? Learning and sharing information, knowledge, experience and skills of innovative technology and progressive management. We have an open environment and have developed a trust among our membership - counties and business partners - that carries forward to all our stakeholders. That trust transcends size of county, number of years in office, or political party. This mutual trust is obvious to all our stakeholders and affords us a strong influence in statewide issues.

TCTECH was in the forefront of staggered tag sales, GRATIS implementation, web renewals, and many other statewide initiatives. We were pilot counties for many statewide software implementations. We provided guidance for many new Tax Commissioners.

Our annual conferences are legendary! Really! Our members consistently rate our conference at the top for meeting the objectives, usefulness of material taught, and being interesting. And much is learned outside of the meetings - networking, sharing and fellowship.

Recently, we held a free one-day workshop on retirement issues with speakers from ERS and DOR. The forfeited leave issue was re-evaluated after several discussions and a personal meeting with DOR prior to this workshop. Because of that, a new policy has been developed that will benefit most retiring Tax Commissioners.

I hope you will join TCTECH to take advantage of our one-day workshops in 2012 and our awesome conference! Find out what TCTECH can do for you.

PROFESSIONAL ASSOCIATION!

Danny Sane

I have been Tax Commissioner for 19 years. My relationship with TCTECH has made a world of difference in the operations and procedures in my office. The technology that I have learned has allowed me to do so much more with less - we have more than doubled our workload and only have one more employee than I had 19 years ago.

My TCTECH experience became even more valuable with this economic downturn and the budget cuts that local Governments are currently facing. It is a fact that the State has taught me to be a Tax Commissioner and TCTECH has taught me how to be a smart and resourceful Tax Commissioner using the latest technology.

Membership in TCTECH = savings to the taxpayers.

Danny W. Sane  
Whitfield County Tax Commissioner
